

# Trailed Gang: 1, 3 and 5 units

**For over a century trailed gangs have been one of the most efficient and productive methods for mowing large open spaces. Very low maintenance resulting from the simplicity of design makes this a reliable and cost effective way to cut large areas of grass.**

There's no hydraulic requirements and hence, as they are ground-driven, they're environmentally friendly. Add the fact that they can be combined in any configuration from a single unit to a total of five and you have a very versatile package.

**Cutting Width:** Up to 3.5 m (138")

**Drive System:** Ground driven

**Special Features:** Up to 4 ha/h (9.8 acres/h) productivity low maintenance, simple design
